

TRAINING 2: ENVIRONMENTAL AWARENESS & DEVELOPMENT COOPERATION

“Food for thought”

- 1) Environmental Rights = Human Rights?
- 2) How to include ‘green’ planning into your development project – from idea to implementation?
- 3) How to measure the ‘greenness’ of your project and the added value of this?
- 4) How (and/or why) to increase collaboration between green and development NGOs?
- 5) What are the environmental daily practises our work could be improved with?
